

VERI

MOD HANDBOOK of D-UwU-m

All of Veri's moderators are expected to engage with the community while monitoring chat and taking care of any reasonable requests Veri might make of them.

Various Twitch moderators will have different responsibilities.

This document was originally intended as a FUCKING HUGE comprehensive guide for Nym's personal use, but has now (d)evolved into this giant manual regarding any and all issues, expectations, & duties you may have as when modding for Veri.

[THIS GUIDE WILL COVER:]

- [SHOUTOUTS](#)
- [RAIDS](#)
- [BASIC COMMANDS](#)
- [GREETERS](#)
- [MOD BEHAVIOR](#)
- [VERI REMINDERS](#)
- [BOT MANAGEMENT](#)
- [DISCORD POLICING](#)

[FULL COMMAND LIST](#) [DISCORD POLICING](#)

Shout Outs	!newso @usernam e !so
------------	--------------------------------

@username

- For the most part, shout out all content creators. Veri will ask for shoutouts for specific creators.
- You may also use it to draw Veri's attention to the fact the streamer is in her chat - she obviously notices.
- Usually, a shout out is given when the streamer first appears in chat. This is delayed for the beginning of stream (first 30m), during Raids, or if Veri is away from her computer.
- Use !newso for the Content Creators that are REGULARS, FRIENDS, for RAIDS, and if Veri asks for a shoutout.
- Use !so for any and all other Content Creators
- !newso - plays GPT-AI summary along with a clip.
- !so - links to user's channel and gives a shoutout.

Raids

- 🌸 The person leading the raid should be shouted out AFTER the Raid intro.
- 🌸 When Veri is explaining her lore, she'll say:
"I was driven kinda mad from the grief and the rage, so I was gunna bring them back..." and she'll pause.
- 🌸 Use the !magic command during this pause in Veri's lore exposition when she mentions bringing back her lover using magic.
- 🌸 Please ENCOURAGE EVERYONE IN CHAT to pop !magic as well.
- 🌸 Please pop the !magic command and sprinkle in the !gif magic command during this time.

Basic Commands

There are metric SHITTONS of fun commands rotating in and out, but these ones are those at the center of your job.

If there is a / command here you are unable to do then please let us know.

Some of these commands require the Editor role in Veri's Twitch, which not all mods will have access to.

If there are brackets [] around a word, take the brackets out when using the command. These are roughly presented in order of importance and frequency of use.

See the [COMMAND LIST](#) for a full list of commands.

!unmod

- Plays a sound alert so Veri is aware when an on duty mod is stepping away for a break or le

!unmod + pepsi

Put 'I need a pepsi' or 'grabbing a pepsi' etc Lets Veri know there's an issue and to check DM's from you IMMEDIATELY

!remod

- Plays a sound alert and lets Veri know that you're coming (back?) on duty.

!so

- Shoutout another streamer

!newso

Shoutout a streamer with clip.

CUTE TIMEOUTS

/timeout @username [time in seconds] [reason]

- Silences the user for the specified amount of time in seconds

/untimeout @username

Ends a timeout prematurely

!setgame [game]

- Changes the category for the stream

/user [username]

- Displays profile information and moderator notes along with message, timeout and ban his

/announcecolor - highlight message

- Draws attention to the message

/ban @twitchhandle [reason]

- Bans the user from the channel.

/help [command]

- Get help on a specific command

!unmod

- Plays a sound alert so Veri is aware when an on duty mod is stepping away.

!remod

- Plays a sound alert and lets Veri know that you're coming (back?) on duty.

!remind 'text string'

- Posts the string of text to the Remind Veri discord channel.
- You may make a post in [STREAM LOGS](#) yourself instead.

!patreon

- Gives link to Patreon

!socials

- Gives links to Veri's social media accounts

!discord

- Gives a link to Veri's official discord

!rules

- Gives a link to the guidelines users should abide by.

!raiders

- Provides information for raiders coming in

!tip

- Gives a link for people to donate to the channel

!collab

- Shares information about the current (or last) collaboration

/emoteonly / emoteonlyoff

- A toggle so so only VIPs and moderators may post anything but emotes in chat.

- Generally only used when someone requests “I Love Cats”.

/requests

- Open Channel Point request queue

!magic

- A flavour command spammed during raids

!shop

- Lets people know what they can spend their faith on

!addfaith

!addfaith @user 100

!welcome

- Infographic for new people

!medcheck

- General well-being command. Oftentimes used to get Veri’s attention when it is time for he

!7tv

- Brings up a link to [Veri’s 7TV emotes](#)

!merch

- Gives a link to Veri’s shop

!gift

- Gives a link to Veri’s Throne

!tip

- Links to Veri’s Paypal / Cashapp

/clear

- Clears chat for non-moderators

/poll

- Start a poll

/prediction

- Start a prediction. A mod has to choose a winning answer after the prediction is done.

/marker

- add stream marker to VOD at current timestamp
- /marker is not functioning as of the time this primer was being written.

Greeting

MODS PLEASE TROLL / MAKE FUN OF VERI USING THE COMMAND LIST.

Veri should have one or more moderators on whenever the stream is live to welcome and say goodbye to active chatters. This helps the chatters feel seen and gives Veri an additional chance to notice who comes in or leaves amidst all the messages.

Please continue to interact with viewers even if Veri acknowledges them so there is a sense of consistency. How you go about this is a matter of personal preference, but should be warm unless you know the individual veri well. In which case feel free to treat them like dirt if that is the kind of personal relationship you two have. Please try not to do anything that other viewers might find off putting however.

Some moderators may wish to make use of 7TV emotes. [VERI'S 7TV EMOTES CAN BE FOUND HERE](#). The !7tv command will bring up the same link in stream. Please remember that not all users will have 7TV installed so you might not want to use them when greeting or saying goodbye to people unless you have noticed them using 7TV emotes in the past. This is not a rule or anything. Just something to keep in mind.

A minor task is to make certain chat is somewhat active. It eats at Veri when the chat is quiet. Many new viewers will leave upon arrival if they believe chat is dead. Attempt to keep Veri engaged with chat when you can. Back off and let viewers do their thing if the chat is moving. This is not a requirement for the job, but is nice when possible.

There are many fun commands to help with the task of keeping chat engaging. Check the [COMMAND LIST](#) for a full list of commands. You can sort by Type and look for [Amusement](#) and [Counter](#) for suggestions. Some you may consider are Aim, BDE, Blame, !aim !bde !chaos !coke !facts !fail !gif !goodgirl !hangman !hug !noct !pain !panic !quiz !rank !rizz !scuffed !shame !sussy !sussy !useless !vine !win !winning !zimsult

When Veri wins a match or something, do !win !winning !pog !clutch or something.

If she fails or sucks at something, !fail !aim

If a guest says something offensive or inconsiderate, do !guest

GUIDE THE CHAT

This is going to sound a bit odd, but viewers are a manipulable crowd. It's possible to shape the chat into a more pleasant experience by interacting with it.

Let's say, for example, that there's a flamewar against a certain player, or an argument between two different sides.

Distract them with an obvious question: "What champion do you think he's going to play next?"

"Is <item> good on agent?"

"Why is he going there instead of B Long?"

It won't always work, but when it does, it can completely shut down an argument or spam.

BE PATIENT, PLEASE.

Due to the constant influx of new viewers, the same question will be asked, and the same rule will be broken, over and over again.

As a moderator, you must be patient and understand this fact.

Never allow yourself to burst out towards your viewers with sentences like "OH MY GOD STOP ASKING THAT!", etc.

As a moderator, you must be a role model of a viewer. This does not mean impeccable grammar.

Rather, it means to not spam, flame, or type in full caps among other things. This will make the viewers respect you.

Saying that, don't be afraid to use a stern voice sometimes. But do it in a graceful manner.

DONT @ VERI

- 1st Time : WARNING
- 2nd Time: 2 MIN TIMEOUT
- 3rd Time: MOD DISCRETION

Behavior

This section is under constant revision. Please consult the discord server for more up to date information or if you have any questions.

Record any action taken concerning a viewer or reasons to keep an eye on a user in the [Twitch Sus List](#) thread in Veri's discord server. You may also put a note on their account on twitch, but not everyone has easy access to the notes on a user and they can be difficult to check when the user is offline.

People may promote a stream other than Veri's when prompted. Warn those that discuss another stream without being invited by Veri or a moderator to do so. Give another warning, time them out, and place a note on their account if they continue. Continued promotion after that may result in a ban. Refrain from promoting other streamers yourself, including your own stream.

Ban bots when encountered. Report the bot to Twitch. There is no need to report banned bots to the [Twitch Sus List](#) thread in discord

Ban first time chatters with misogynistic, homophobic, or racially charged messages. Report to twitch as coordinated harassment if multiple first time chatters are working in concert. Record such users to the [Twitch Sus List](#) in discord.

- Time out community members that do so and bring it to the attention of the mod team. Wi

Some of these messages will be hidden from chat until they are allowed or denied.

- Allow messages that are not being harmful.
- Remove the term from Permitted Terms in most cases.
- Someone will check the list later so this is not vital.

Discussion of politics and religion is prohibited. Warn, then timeout if it continues. Bring to the moderation team by reporting to the [Twitch Sus List](#) discord thread so we can determine if there is a pattern and the person needs to be banned or not.

Minors (16-17) permitted at this time but will be closely monitored.

Moderators do not discuss moderation decisions with the public. Keep all discussion concerning moderation and users out of group chats and restrict it to Veri's discord server. Do not contradict Veri or other mods in public. Moderators do not publicly suggest Veri needs to sleep. She knows she needs sleep, but it is impossible for her to do so at times.

Any discussion concerning stream, the direction of stream, or changing what mods or Veri might do should be conducted within the discord server. There have been instances in the past of mods attempting to guide the direction of stream without Veri's knowledge. This is done so Veri has logs of any such discussions. If you need to DM another moderator concerning possible changes to how stream operates, then please either create a thread in her discord server to discuss the matter, or do so in a VC with Veri present.

Don't lose your cool with anyone in chat. You are a Mod and held to a MUCH higher standard than everyone else. Don't let yourself get dragged into a shitstorm in chat. You always have to be the better person. Don't make Veri sad.

If a viewer asks Veri if she has seen their message, please request that they repost their message and possibly highlight it. Request that they wait two or three minutes or for a lull. Time them out for one minute if they persist.

Warn then timeout users that ask Veri a question already answered by one or more moderators.

Remove yourself from all giveaways, including rotating viewer games, predictions, etc.

DON'T CALL OUT LURKERS

Veri Reminders

- Moderators help track Veri's medicine. She takes it every six to eight hours. Ask directly, use [tream-mods-on-duty](#) channel so moderators coming in later know when to next request a medcheck.
- Moderators remind Veri of unfulfilled redeems. The standard format is to use a highlighted message redeem with a message similar to, "T
- Feel free to flavour the message however you like as long as the intent is known. Try to tim
- You may also want to remind Veri whenever the person with the redeem is preparing to lea
- Check off fulfilled redeems in the reward queue.
- Refund those that go for more than half an hour without being fulfilled.

First, Second, and Third remain in the reward queue for the first hour unless Veri acknowledges them sooner. Try to remind Veri to turn them back on.

You can bring up the reward queue using the /requests command. Alternatively, you may click on the three circles on the Redeem popup. Either will pull up a separate browser window with the reward queue. You may also bring up the request queue in Moderator View. Doing so will let you dock the reward queue to the layout to save it's location. It is not open by default.

Veri will sometimes request the mods to remind her of a task to be done at a later time. Post this in the [remind-veri](#) discord channel. Alternative, you may use the !remind 'text' command to have a new post be created in the Remind Veri channel using the string of text.

Bot Manageme nt

There is little hands-on management required by most moderators to manage Veri's bots. Most commands are handled by mix it up on her local machine.

You may need to toggle off or on Chat alerts in StreamElements. Select the Modules tab for Cloudbot. You can toggle all of the Chat Alerts as a whole, or click Preference and toggle the various chat alerts individually. The most common reason to toggle is if Veri receives follow bots. Toggle off Follow alerts under Chat Alerts.

You may also be asked to add or modify a command. These may be found under the Chatbot-> Custom tab.

Use the search bar to locate an existing command or the Add Command button to create a new command. Each command must have at least a Name and Response field. The name is the !name of the command that will be used in chat. The response is the box of text the bot will display when the command is issued.

The most likely command moderators will need to edit is the !collab command. Update this command as Veri's collab partners come and go.

The funnier the message, the happier we all are. Veri the Forlorn, Veri the Vanquished, and Veri the Scuffed are fan-favorite starters.

Discord Policing

One of the responsibilities of all the mods is to keep an eye on the discord. There is a discord team that will handle anything that is not time sensitive such as checking identification for the Red Light District or arranging the channels.

All mods are to be on the lookout for bots and spammers that require immediate removal. Do not wait for approval from anyone if someone new to the server is spamming it. Ban them immediately. Share any user's info and reason for possible moderation in the [Discord Sus List](#) so the Discord Team can follow up on it.

Twitch moderators make use of the [Remind Veri](#) channel to post reminders for Veri and the threads in the [Twitch Mods on Duty](#) channel for tracking who has been shouted out and for tracking things such as when medication was taken.

Stream business and discussion is to occur within the server. Action may be taken if it is discovered moderators are using groups outside of the server for discussing stream business.

[You might find some of the links presented here to be useful.](#)

Always add discretion clause to your rules so viewers know that you will ban outside them if necessary, or ignore people who violate the letter but not the spirit

Hand out Warnings as needed. They let viewers know you are serious and remove offensive material. Legitimate viewers will almost always ask why they were purged, helping you tell them apart from trolls and bots

Log in to your own account in streamelements. Veri will give you a link with permissions. Once you have followed the link and confirmed everything, you should have limited access to Veri's account. Scroll down to Settings while in your account and select the Shared Access tab.

Select the VeriTheVixen link or Access Account button. If you close out while in her account in this manner then you will still be in her account when you next get on steamlabs so this process is not required each time you get on. You will mostly just be using Cloudbot which can be found on the left panel.

IF IN DOUBT, ASK NYM OR VERI.
